Subject: outstanding Chap 4 comments
04 Development v7.docx

Hi Phil,

Could you have a look through the latest version of Chap 4 and see if you can address any of the outstanding comments?

My plan is to send Chap 4 and Chap 6 to the technical editors late today, so at that point they become the holders of the official versions (we can still make changes, but they'll have to go through me for version control purposes).

Thanks! Kate
